## *Neuropsychology (Adult only)Authorizations:*

- Neuropsychology is considered a "High Risk" clinic meaning appointments should not be scheduled unless there is a diagnosis, pending referral, or clinical notes stating what the patient is being referred for. You can verify diagnosis by looking in the patient's chart, in the media tab, in a pending referral or by calling patients PCP's office. Also please check appointment notes to verify what the patient is being seen for. Diagnosis should match the reason for visit.
- Neuropsychology does not accept Medi-Cal.
- Patient's under the age of 18, referrals go to Pediatric department (PNAP) # 909-651-1899 or   extension 28687
- When obtaining authorization please submit for medical benefits NOT Behavioral Health.

Referral in LLEAP:

Department: ORC REHAB PSYCH

Department Specialty: Neuropsychology

Provider Specialty: Neuropsychology

Referred to

Vendor:		Location:	⚠
Department:	ORC REHAB PSYCH	Provider:	
Department specialty:	Neuropsychology	Provider specialty:	Neuropsychology

Clinic must approve the initial consult visit. Financial Services is responsible for obtaining authorization for Consult and follow up referrals for Neurosych. All codes are listed on page 2.

****(PLEASE BE VIGILANT)**** **Example:** If an authorization is approved for CPT 96152 x 24 **units; (4 units =1 visit)** this doesn't mean 24 **visits** were approved. **24 units** divided by **4** = **6 visits.**
